

Let us introduce you to the Zoom Mailing Mom Squad

The Challenge

Say that you need to assemble a brochure, letter, and promotion piece into a box, and have it shipped. Time is always a factor, so you need all those items packaged together and sent out to 1,000 recipients – by Friday.

We can help!

How? Do we use a state-of-the-art machine or revolutionary method?

Nope. We do what anyone who needs help fast does...

We Turn To Our Moms!

Moms make miracles happen every day. They get the kids to school, practice and play dates, while refereeing arguments and problem solving. Zoom Mailing is made up of real-life moms (including the owner, who is a mom of 3 boys, that grew up in the business) these moms transfer their miracle-making abilities to our Kitting and Assembly Services. Working part time, they can come together at a moment's notice to package and ship your informational packets quickly with an attention to detail you won't get with any machine.

These moms are specially trained in a wide range of Kitting and Assembly projects. They can handle your mailings from 100 to 10,000 and do it in fine detail.

The Mom Squad Capabilities:

- Assemble, package and ship kits that include printed items, display pieces, product samples, and other promotional items.
- Manage complex kitting operations, including those with a combination inventory and on-demand items. They can provide partial assembly for hold until the final pieces are delivered, and ship the completed package the same day.
- Assemble packages comprising multiple variable-data items, with each individual item in the kit tailored exclusively to its intended recipient.
- Manage staged shipping over days or weeks, or ensure that long-term, on-demand kitting gets same-day shipping.
- No missing or duplicate items because of machine error.
- And best of all, like a Mom they love what they do, and it shows in their work.
